

## DROUGHT CONDITIONS

We welcomed continued improvements over the past week with the amount of Texas in drought dropping to 36 percent and statewide reservoir storage rising to 70 percent full. Nevertheless, reservoir storage is still more than 13 percentage points less than normal, with much of the western half of the state seeing little recovery.

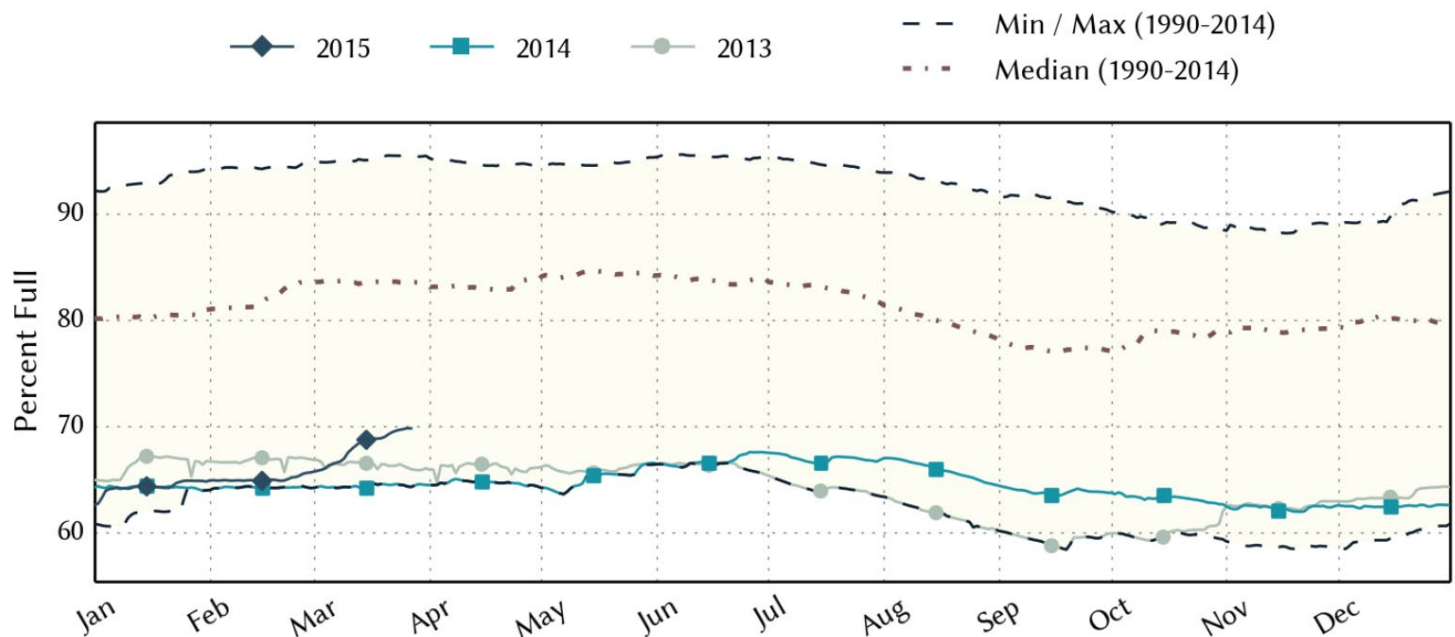

### Drought statistics

- 36% of state currently in moderate to exceptional drought
- 40% a week ago
- 43% three months ago
- 67% a year ago

## STATEWIDE RESERVOIR STORAGE

Comparison of statewide reservoir storage to minimums, maximums, and medians since 1990 and storage levels from 2013 and 2014.
