

# Water Weekly

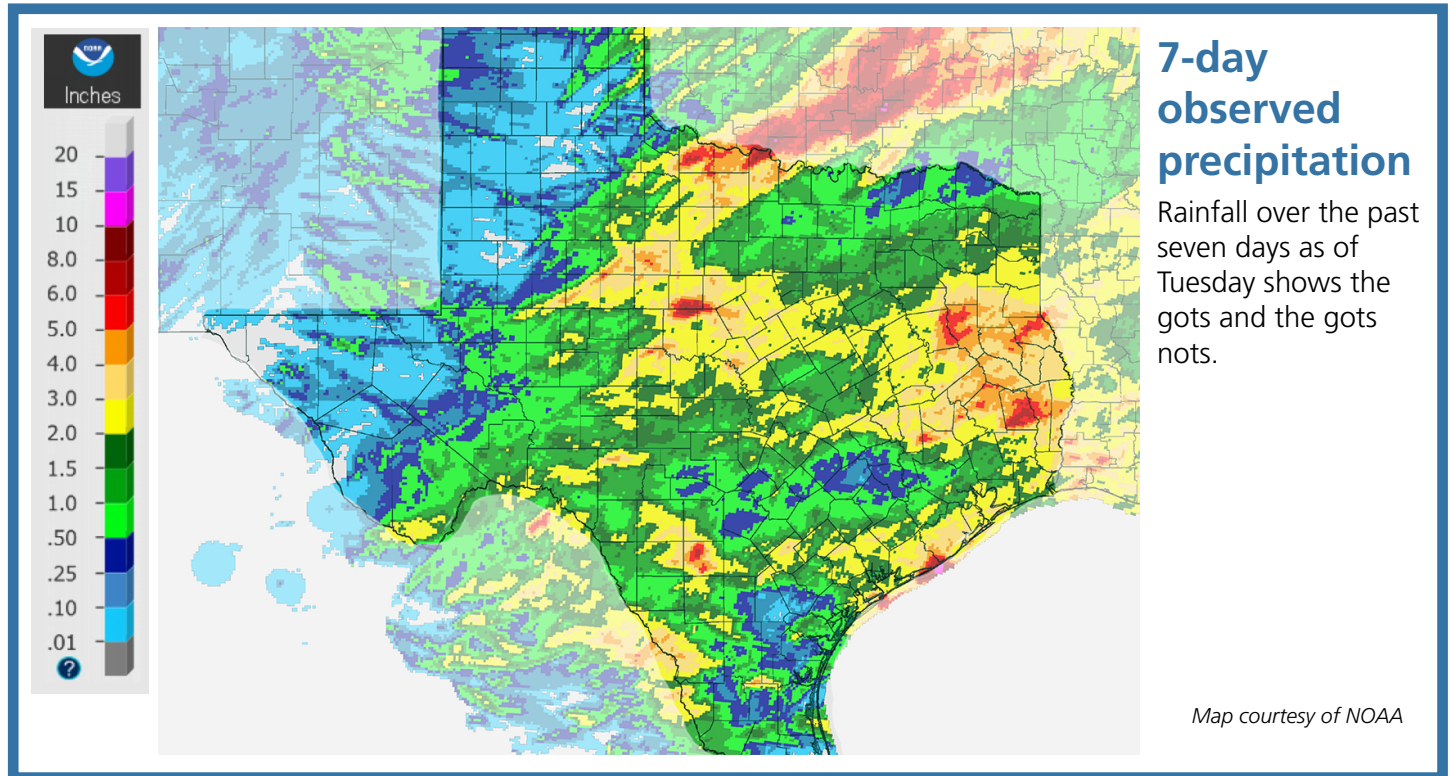

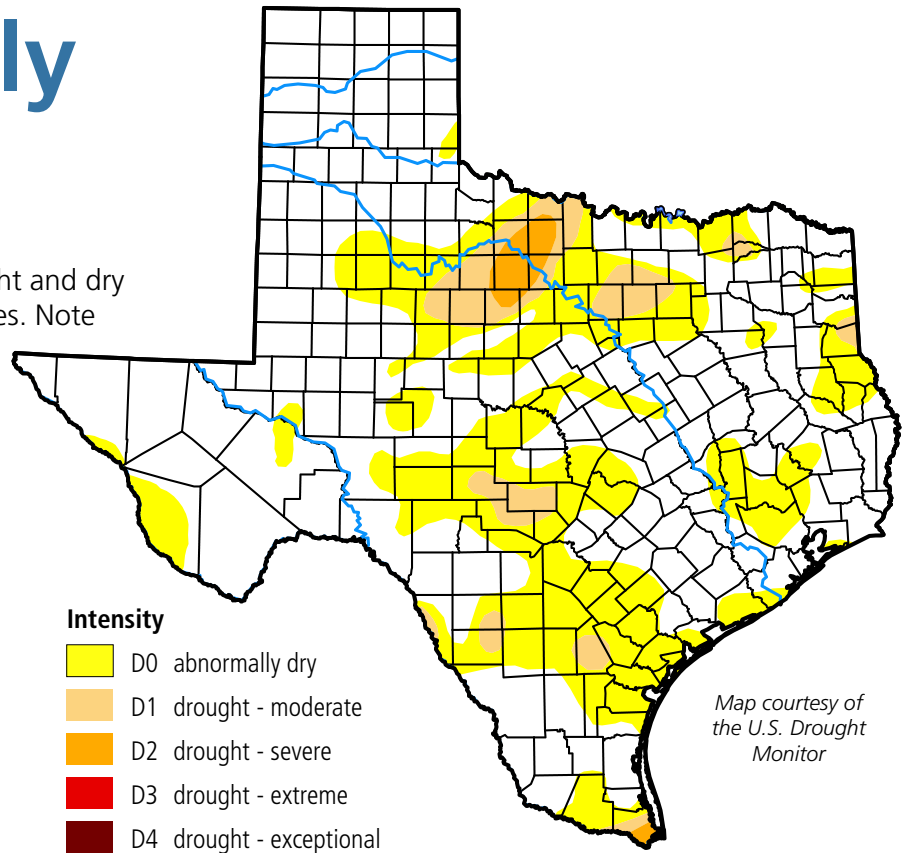

For the week of 05/22/17

## Water conditions

This week brings us quite an uptick in drought and dry conditions as our unusually dry May continues. Note that this map represents conditions as of Tuesday last week; therefore, it doesn't include the past week's rains, which have benefitted the northern half of the state.

## Drought conditions

- ◆ 6% now
- ◆ 2% a week ago
- ◆ 4% three months ago
- ◆ 0% a year ago

## 7-day observed precipitation

Rainfall over the past seven days as of Tuesday shows the gots and the gots nots.
