

Water Weekly

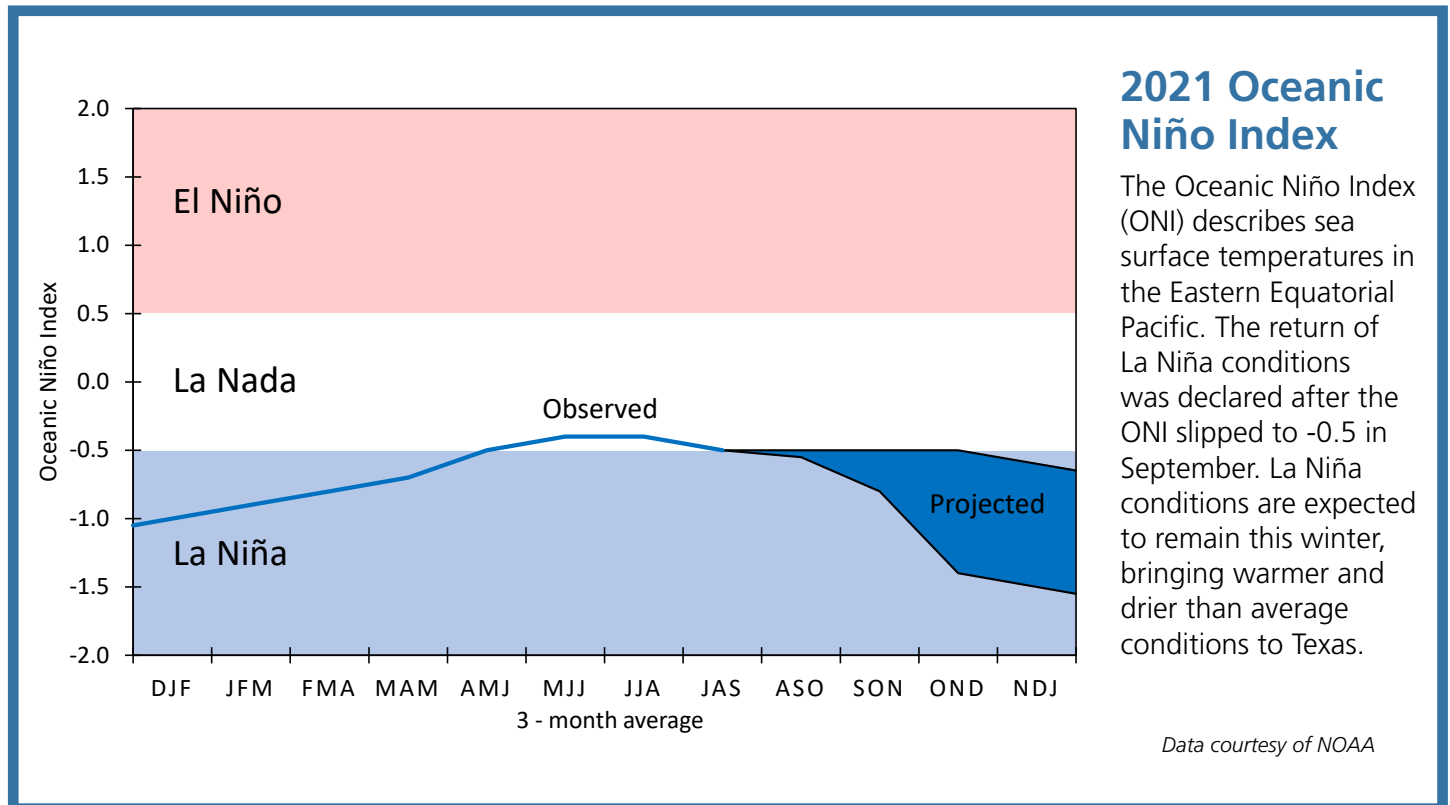

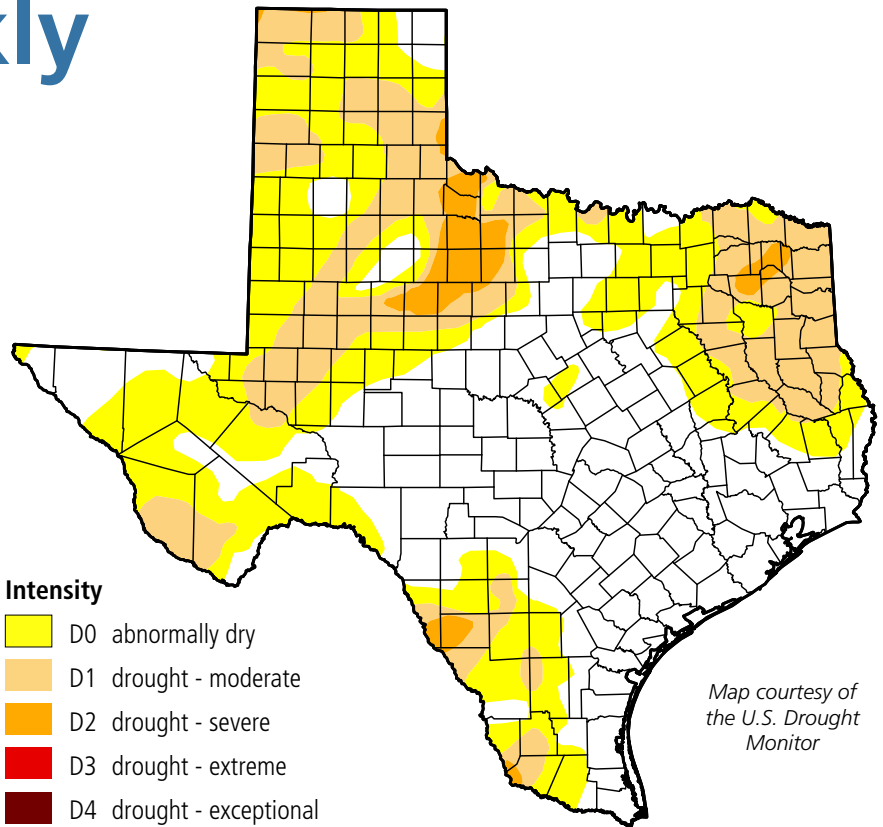

For the week of 11/01/21

Water conditions

For the most part, recent rains have missed the abnormally dry and drought-stricken areas of the state. As a result, the drought map for conditions as of October 26 shows continued expansion of drought. Expect more drought next week, especially in West Texas and the Panhandle.

Drought conditions

- ◆ 24% now
- ◆ 19% a week ago
- ◆ 1% three months ago
- ◆ 43% a year ago
